

Welcome To **ARNK**

With an experience & history of over 4 decades and a team led by passionate leaders, ARNK believes in taking you from the FOUNDATION TO FINISH.

We are a people's company. Our company is formed by family ties, and every new person added to the unit becomes a part of the family. We provide complete turnkey solutions covering engineering, planning, execution, and delivery.

With our headquarters in Mumbai and a state-of-the-art 25,000 sq. ft. manufacturing facility in Virar, we are set to expand to 50,000 sq. ft. by next year. We have established a strong pan-India presence. Our mission is to transform spaces into lasting experiences through innovation, quality, and design excellence. We are ISO 9001:2015 certified.

OUR STORY >>

Foundation

Our journey began in 1986, when our fathers laid the foundation of Laxmi Décor with a clear vision to deliver top-tier craftsmanship and turn architects' ideas into reality. Over the years, that vision has shaped a reputation for excellence, built on consistently meeting the highest standards.

A New Chapter

In 2016, we rebranded as ARNK, marking the start of a new chapter driven by innovation. With a dynamic team, cutting edge technology, and a fresh perspective, we began creating intelligent interior spaces delivered with creativity, precision, and speed.

Growth & Expansion

ARNK has grown from 3-Seater Office to 50-Seater HQ in Mumbai. Our manufacturing unit has expanded from 150 sq. ft. to 25,000 sq. ft. in Virar, helping us meet rising demand and deliver high-quality projects on tight timelines.

Diversifying Our Portfolio

We operate across commercial, retail, hospitality, pharmaceutical, and residential sectors, delivering standout spaces for brands like Reliance, TATA, JSW Steel, Nerolac, Shoppers Stop, and Lupin. From star hotels and museums to real estate developments and luxury homes, our portfolio reflects a consistent pursuit of excellence.

Expanding Our Reach

From our roots in Mumbai, we've grown to serve 25+ cities across India, delivering exceptional quality and service. Our reach continues to grow, driven by a strong commitment to excellence and customer satisfaction.

> Vision

To lead the way in EPC by delivering smart, high-quality fit-out and MEP solutions. For us, it's about blending innovation, safety, and reliability to create real value for our clients and the communities we work in.

> Mission

We're here to build more than just spaces. Through turnkey EPC solutions, we focus on quality, fresh thinking, and on-time delivery, creating places people trust and partnerships that last.

> Core Values

At ARNK, we value excellence in execution, integrity in our actions, innovation in every solution, sustainability in practice, teamwork at every step, and a customer-first mindset in everything we do.

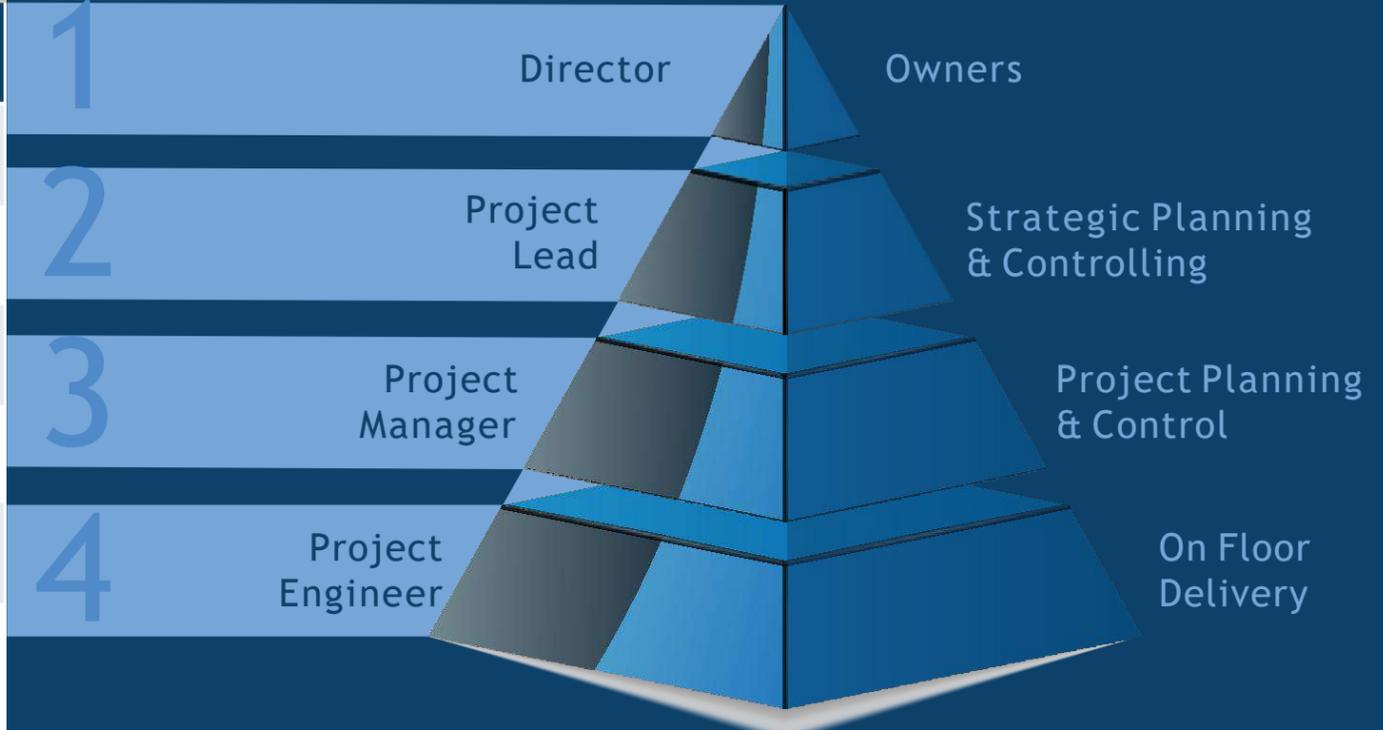

MANAGEMENT >> INVOLVEMENT

ESCALATION MATRIX >>>

Our clear escalation matrix ensures quick, accountable resolutions at every level. What truly defines ARNK Group is our leadership's hands-on approach—management stays actively involved across all stages, ensuring smooth execution, timely delivery, and uncompromised quality.

QUALITY ASSURANCE AND CONTROL

At ARNK Group, our robust QA/QC framework ensures seamless execution and superior quality across all project sites. Our process includes

Through these structured practices, ARNK ensures the delivery of high-performance, defect-free projects on time and to the highest standards.

QUALITY ASSURANCE AND CONTROL

Quality Policy

As an organization ARNK follows a strict quality control on our projects to deliver the highest standards of the quality project to our clients as per the expectations.

We have a quality control team who frequently visits to the projects to ensure execution is in strict accordance with the best practices and standards to achieve the highest standards of quality during execution. The project team is well trained on the quality part to maintain the set quality parameters.

The QA process starts from the initial stage of selection of material up to the final finishing and handing over of the project. Routine visits and inspections help us to maintain the quality standards. Technical support is being provided to the execution team in achieving the best quality and results.

Our performance can be recognized from the repeat orders from the clients giving them a confidence to deliver our potential by best performance as per the requirements in terms of time lines and quality work. Implementation of best practices and work methods helps us to perform and deliver the superior quality of works.

Latest technology and equipment are in place, technical assistance from consultants, certifications and lab tests from recognized laboratories etc.

HEALTH, SAFETY AND ENVIRONMENT [HSE PROCESS]

At ARNK Group, we are committed to maintaining the highest standards of Health, Safety, and Environmental (HSE) practices across all our project sites. Our structured HSE process ensures a safe, compliant, and sustainable work environment.

Our proactive HSE approach helps us safeguard lives, reduce environmental impact, and deliver responsible infrastructure.

HEALTH, SAFETY AND ENVIRONMENT [HSE PROCESS]

Safety Policy

ARNK INTERIORS EHS Policy is developed, actively supported and endorsed by management at the highest level. It defines and documents its EHS policy and Management Goals and ensures that they:

- Are consistent with those of the company's/client's requirement.
- Are relevant to the company's activities, products and services.
- Are consistent with and are of equal importance to other business policies of the company.
- Commit the company to meet all relevant regulatory and legislative requirements.
- Commit the company to reduce the risks and hazards to health, safety and environment to levels which are As Low As Reasonably Practicable (ALARP)
- To provide a framework for continuous efforts to improve EMS performance.
- To be effective and all employees/subcontractors are made aware of the EHS Policy's existence and its requirements are explained to all workers during their safety induction.
- Conduct Audits and Mock Drills on site to ensure that the activities are in compliance with that of the Environment, Health and Safety requirements.
- Provide and maintain safe and secure working environment by training workers and explaining work methodology.
- Are to ensure that appropriate preventive resources are available to maintain Health and Safety of the working people.
- ARNK believes in "Zero Accident Level" and that can be achieved by constant implementation of EHS guidelines.
